

PROJECT COMPLETION REPORT

**PROJECT UNDER SUSTAINABLE DEVELOPMENT PLAN
(SDP)**

TANAKALLU MANDAL

ANANTAPURAMU DISTRICT

Name of the Watershed: GANGASANIVANDLAPALLI

Prepared by

**GANGASANIVANDLAPALLI VILLAGE WATERSHED
COMMITTEE**

**Supported by Jana Jagruti Project Facilitating Agency
(PFA)**

31.07. 2019

Submitted to

**NATIONAL BANK FOR AGRICULTURE AND RURAL DEVELOPMENT
ANDHRA PRADESH REGIONAL OFFICE - HYDERABAD**

Project Completion Report (PCR)

Title of the project: Gangasanivandlapalli Sustainable Development Project

Mandal: Tanakallu, **District:** Anantapuramu.

Background of the project

The watershed Project started under WDF Project in 2010 year and completed in 2015 year. During implementation of watershed projects major focus is given for conservation of basic natural resources like soil and water.

In that major activities taken up are here under

Sl.No	Component	Amount Sanctioned	Amount released	Amount utilized	Major activities taken up
1	Area treatments	77.26	63.21	63.21	New Field Bunding, Stone outlets, Farm Bunding with stone revetment, Stone bunding, Water absorption trench, AH, DH AF plantation.
2	Drainage line treatments	13.76	12.94	12.94	Loose bolder structures, Stone gully plugs, Rock fill dams, Check dams, Check walls, supply Channels.
3	Agriculture Productivity Enhancement measures	7.93	7.94	7.94	NPM, Vermi compost, Household horticulture, Kitchen Garden, Vegetable demo, Flori culture, Tank silt application, Sustainable agriculture practices.
4	Livelihood support	10.46	10.46	10.46	Milch animal, Ram lamb raring, Back yard poultry, Sheep raring, Leaf plates making, Chaff cutter, Seed cum fertile driller.
5	Trainings	1.00	1.00	1.00	NPM, Livestock management, Sustainable agriculture practices.
6	RO plant	2.00	2.00	2.00	RO plant installed in won building.
	Total	112.41	97.55	97.55	

However, to address the sustainable development in the watershed projects, NABARD has come out with Sustainable Development Programme (SDP), wherein, the critical issues of technology transfer, agriculture extension, credit intensification, Integrated Pest Management (IPM), Integrated Nutrient Management (INM), etc., are being addressed in the post watershed development period through capacity building and leadership development of the watershed community. Convergence of various centrally sponsored schemes like National Food Security Mission, National Mission for Sustainable Agriculture, Mission for Integrated Development of Horticulture, etc. including social security schemes like PMJJBY, PMSBY, APY, JDY etc.

SDP Project sanctions details:**(Rs. in lakh)**

Letter No.	NB.AP.FSDD/SDP CC – 01/2661-50/2016-17
Dated:	17.03.2017
Project period	2Years (01.04.2017 to 31.03.2019)
Total project cost	9.65
Grant amount sanctioned	9.65
Community contribution (as per sanction)	0
Grant amount released	9.15
Grant amount utilized	9.65
Balance grant available in bank account (Submit copy)	0.0
Community contribution actually mobilized	0.00

Status of Maintenance Fund (MF):**(Rs.)**

Account No.	19071586081
Name of Bank & Branch	Andhra Pragathi Grameena Bank, Nallagutlapalli
IFSC Code	APGB0001040
MF received from NABARD	5.197
Total amount	5.197
Amount in fixed deposit	3.10
Amount utilized towards maintenance of structures	0.00
Bank charges, if any	0.00
Balance amount available in 'MF' account	72403

Status of MACS:**(Rs.)**

Account No.	91022304315
Name of Bank & Branch	Andhra Pragathi Grameena Bank, Nallagutlapalli
IFSC Code	APGB0001040
Grant received	14.382
Total revolving fund	14.382
Average loan amount per beneficiary	0.15
Total amount	14.382
Total number of beneficiaries covered	286

Loan outstanding	1665643
Amount in fixed deposit	0.00
Balance amount available in 'LH' account	0.00
Major activities supported under livelihood promotion	Milch animals, Sheep raring, crop inputs, Bangles business, petty shops.

46	Other need based trainings – Silage fodder preparation	4000	4000	25
47	Exposure visit on FPO concept at Mulakanur, Capacity building/ Support measures to take up value chain in specific commodity (preferably lead crop) value chain or Capacity building/ support measures for implementing an Area development scheme (based on the ADS indicated in the banking plan for the watershed).	100000	100000	34

Amount spent on Demonstrations:**Rs.**

Sl. No	Details of the demonstration	Amount sanctioned	Amount incurred	No of farmers extended
1	MD on composting techniques, Vermi-composting unit	30000	30000	3
2	MD on preparation of various NPM concoctions	23000	23000	1
3	MD on Bore well recharge	23000	23000	1
4	MD on deep ploughing/ summer ploughing & various in-situ rain water harvesting techniques	6200	6200	1
5	MD on Life saving irrigation using Farm Pond or Tanker water and deploying rain guns or portable sprinkler, motor & pumpsets	12000	12000	3
6	Promotional programme on Solar pumpsets & Solar lighting and the on-going scheme of GoI & GoAP	4000	4000	15
7	Micro irrigation techniques - installation, operation and maintenance (including latest products)	4000	4000	22
8	Soil sampling, Soil testing (about 40 representative samples) and issue of soil health cards	15000	15000	40
9	Reclamation of problem soils	13000	13000	1
10	RD on Integrated Nutrient Management demo plots including green manuring and tank silt application	15000	15000	1
11	RD on Integrated Pest Management includes cost of Sticky charts, Light traps, Pheromone traps, Egg cards & other bio-control measures, use of Botanicals and other cultural practices.	15000	15000	1
12	Demo on ZBNF/ Organic farming	15000	15000	1
13	SRI Paddy demonstration - five half acre plots	15000	15000	1
14	Annapoorna Model' demo	15000	15000	1
15	Seed production plots demo - support measures for the farmers & MVK	15000	15000	1
16	Alternate Varieties, Crops & Cropping system, Crop rotation etc. (including Vegetables and Floriculture)	15000	15000	1
17	Navadhanya system of cultivation demo 2.50 acres plot	15000	15000	1

Amount spent on Exposure visits:**Rs.**

Sl. No	Details of the Exposure visits	Amount sanctioned	Amount incurred	No of farmers taken up for Exposure
1	Exposure visit to a suitable watershed for learning the post watershed approaches. And also to learn Climate Change, Risks & Mitigation, Adaptation measures.	15000	15000	21
2	Exposure visit to a suitable place to learn crop water budgeting, efficient water management practices, bore well recharging, water sharing, adoption of low water duty crops and crops grown under irrigated dry (ID) condition & SRI Paddy.	25800	25800	26
3	Exposure visit to KVK, ARS and ATMA - to learn Climate resilient agriculture techniques & in-situ soil moisture conservation works from ARS, Rekalkunta & other sustainable agricultural practices from KVK, Reddypalli.	15000	15000	22
4	Exposure visit of Farmers to Prakriti Vanam - Madanapalle, Aadharana Paadi-Panta farm to learn Integrated farming and Organic farming	15000	15000	21
5	Exposure visit on Seed Village Programme Seed self sufficiency, Seed Bank; Procurement of farm produce by CBO, Collective Marketing, Processing for value addition.	15000	15000	23
6	Exposure visit on Fodder Development - Rayalpadu	15000	15000	18
7	Exposure visit on Livestock management practices	15000	15000	26
8	Exposure visit on Horticulture - Model Fruit gardens	15000	15000	24

Amount spent on Promotion of Farmer Producers Organization:**Rs.**

Sl. No	Details	Amount sanctioned	Amount incurred	No of farmers

Impact or Outcome

Sl. No	Parameter	Before SDP	After SDP	Comments
1	Productivity of major crops per Acre. Groundnut	6.25	7.20	There was an increase in the yield in Groundnut of 1.3 qtls per acre due to following sustainable agricultural practices in the SDP area.
	Maize	23.00	27.50	There was an increase of 5.5 qtls per acre in the yield o Maize due to following sustainable agricultural practices in the SDP area.
	Redgram	4.50	6.70	There was an increase of 1.5 qtls per acre in the Redgram due to following sustainable agricultural practices in the SDP area.
2	Cultivated area (Acres)	795.33	425.4	Cultivated area was decreased in project period because of continue drought form last 8 years.
3	Micro Irrigation viz Sprinkler, Drip and Rain gun etc.	85	147	63 farmers are adopt micro irrigation system equipments in project are during program period.
4	Number of famers adopting innovative methods viz. ZBNF, ZEBA	0	12	12 farmers practicing ZBNF methods in vegetable crops. The farmers covered in four villages Gangasanivandlapalli, Singirivandlapalli, Narevandlapalli and Gandodivaripalli in SDP project area
5	Support from State and Central Govt. Depts.	0	0	-
6	Soil Health Card issued	0	124	We have monitored soil health and adopted manorial schedule as per 95 soil health cards of concerned farmers. This has been resulted in decreased cost of cultivation towards excessive fertilizer application and farmers have got higher yields due to correcting nutritional deficiencies.
7	Financial inclusion-	35 lakhs	1.085 Cro	Farmers are award on financial

				inclusion.
	Number of saving bank accounts	173	298	72 savings bank accounts were being opened in SDP area to facilitate financial inclusion to avoid lending & avoid exploitation through middle men
	Number of Crop loans and Amount	125	292	Farmers covered under crop loans. APGB issued crop loans to farmers in kharif 2019.
	Number of farmers insured	125	292	All loaned farmers are covered under crop insurance scheme.
	Number of term loans and amount	0	0	-
8	Credit intensification- Number of SHGs, Number of JLGs	3500000	10850000	Andhra Pragathi Grameena Bank issued loans to 31 SHGs under income generation activities.
9	Number of FPOs formed	0	1	One FPO formed in the Throughout Mandal Our project area also covered in the FPO. Project area farmers also members in the FPO.
10	Number of MSMEs working	0	0	-
11	Any other significant sustainable practices adopted			-

Component: TRAININGS:

Provide photograph of five major trainings conducted with brief foot note

Photographs of five Trainings conducted (with brief write up on its Utility and Benefit)

1. Seed production and certification:

Training has been conducted on seed production and certification to make them aware of the farmers on seed production process under CMSS program. This meeting was conducted with help of local MAO Mrs. Jyothsna and AEO Mr. Venkatesh. During this training, trainers have explained about various steps involved in seed certification and to maintain the genetic purity of the seed.

Later processing was being explained with the help of processing unit available with concerned FPO. It was explained that the farmers have to demonstrate their seed production plot to the seed certification officers from APSSCA.

2. Horticulture development:

This meeting was conducted by local Horticultural Officer Mr.Sunil and MPEO Ms. Gouthami. Trainers have explained about the importance of horticulture and explained the various schemes of government departments for purpose. Major plants suggested were Mango, Papaya, Black berry and Guava. Trainers have explained about the cost for establishing the orchards and expected income and suitable package of practices to these crops.

this

3. Dairy and poultry development:

This training was conducted by local Asst. Director of Horticulture Mr. Shiva Prasad Raju, he had discussed about dairy development and maintenance methods, he had also explained about various governmental schemes like Sillage with subsidized price of Rs.2 per kg.

With this silage farmer can feed their animal during off season and also they can get more milk yield per animal with enhanced milk quality. He had also explained about the importance of Azolla in improving protein supplement supplied with subsidy and supply of TMR with subsidy component.

4. Animal health camp:

This animal health camp was being conducted by Dr. Harinadha Reddy, Veterinary Asst. Surgeon, trainer had explained about clean cattle rearing with sheds and explained about various schemes available for cattle promotion. During this camp a meeting was conducted to animal Rearers about explain the precautionary measures to be taken for controlling communicable diseases. Later treatment was given to 155 cows and Deworming given to 632 sheep and goats.

5. Sustainable agriculture practices:

This training was conducted by local MAO Mrs. Jyothsna, during this training it was being explained about NPM practices with locally available resources (without using external inputs like chemical fertilizers and pesticides from outside, Zero Budget Natural Farming by using Ghana Jeevamrutham, Drava Jeevamrutham to substitute chemical fertilizers and local concoctions in place chemical pesticides , Bio fertilizers like Rhizobium and PSB.

Component: Demonstrations:

Provide photograph of five major demonstrations conducted with brief foot note

1. Bore well recharge:

This demo was being conducted for demonstrating bore well recharge through tapping rain water. During this demonstration we have shown recharging defunct bore well in to a successful one even during the peak summer functioning without any gaps where other bore wells in the nearby vicinity. For recharging the bore well it was demonstrated tapping the rain water by diverting various streams in to the recharging bore well.

2. Annapurna demo:

During this Annapurna demo, we have demonstrated various vegetable crops in the area of half an acre. Under this demo, crops have been sown according to their height to accommodate the crops for properly utilizing sun light in an effective manner. The crops grown including creepers are Brinjal, Chilli, Tomato, tuber crops- Carrot, beet root, Garlic, Creepers-Bitter gourd, Soya Bean, Ridge gourd, Leafy vegetables Palak, Amaranthas and fruit crops Mango. The farmer had got Rs. 1 lakh from this demonstration plot.

3. ZBNF:

This demo is being conducted with the help of local governmental officials like CRP Udaykumar, local ZBNF staff from the dept. of Agriculture and revenue department. In this demo we have demonstrated the preparation of Drava Jeevamrutham for using as the supplement to chemical fertilizers. The trainers also explained about the importance of Beejamrutham, Ghana Jeevamrutham and mulching with locally available crop residues to retain the soil moisture.

Component: Exposure visits:

Provide photograph of five major Exposure visits organized with brief foot note

1. Horticulture development:

This exposure was being organized for exposing Grape crop to grow this crop in their concerned area. The farmers were shown the grape orchard and interacted with the grower to know about the package of practices being adopted by the farmer, cost for establishing the orchard and various pests and diseases and control measure adopted.

2. Fodder development and Livestock management:

This exposure was conducted to make them aware on fodder development and live stock management. Dr. Ravi Venkatesh Director, Dept. of Fodder Developmet S.V. V.U, Tirupati had explained about various latest fodder varieties developed by the scientists and explained the nutritional values and package of practices. Later they have visited farm at which various developed

fodder varieties being cultivated for demonstration purpose. They have seen the varieties like Super Napier, CO-4, Bajra and Sorghum crops.

Organic farming Marketing:

This exposure visit was being conducted on organic farming and marketing their products. This exposure is organized at Prakruthivanam, Mandalapalli, and Chittoor district. In this visit, trainers have explained about the methods of organic herbal soap and methods for marketing their organic products.

Component: Promotion of FPOs

Provide photograph of five with brief foot note

Each FPO has been provided one water tanker for providing critical irrigation, two MB ploughs for deep ploughing, bed former for formation of bunds, seed cum ferti drill for sowing and application of fertilizers during sowing , power weeder, Paddy rapper for harvesting the paddy crop under for promoting farm mechanization hub. This initiative was taken to cover labor

shortage during peak season and rainy season for which we can utilize the soil moisture. For this program Project has contributed Rs.2 lakhs with equal contribution from the concerned FPO.
